## Environmental Policy

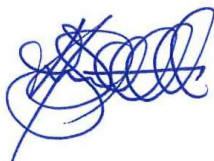

### 1. Introduction

- a. Cranborne wants to contribute to creating a sustainable society from the broad perspective of the future of the earth and humanity.
- b. We dedicate ourselves to providing clean and safe services and to enhancing the quality of life everywhere through all our activities.
- c. We promote compliance with international environmental standards, implementation of enhanced environmental assessments, and realising the principle of construction projects with the least environmental impact with our clients and suppliers.

### 2. Environment and Sustainability

- a. It is our policy to:
  - i. Comply with current environmental legislation and codes of practice.
  - ii. Promote environmental awareness among our employees.
  - iii. Communicate our environmental commitments to clients, and suppliers.
  - iv. Avoid the use of paper wherever possible.
  - v. Recycle equipment that is no longer of use to the company.
  - vi. Keep energy usage low.
  - vii. Purchase supplies and products that do least damage to the environment,
  - viii. Purchase goods and services locally to reduce CO2 emissions.
  - ix. Use low impact transport for travel to and from work and travel for business, whilst avoiding unnecessary travel by making use of instant messaging, video and audio conferencing, telephone, and email.
  - x. Periodically review and strive to improve our environmental performance and to minimise the social and environmental impact of our businesses and business policies.
